

 **SUSILA**
BE GOOD - DO GOOD

Eternal Strings

SPRING/SUMMER 2024

Handmade Jewelry

Welcome to a realm where artistry and spirituality intertwine, where the ancient traditions of Bali come alive through the meticulous hands of our revered artisans.

Eternal Strings invites you to embark on a profound journey of meaning and connection. Each theme resonates with each moment, capturing the sacred energy that flows through the island's very core.

Delve into the **Coastal Sunshine**, where vibrant colors symbolize the harmony between nature and the soul.

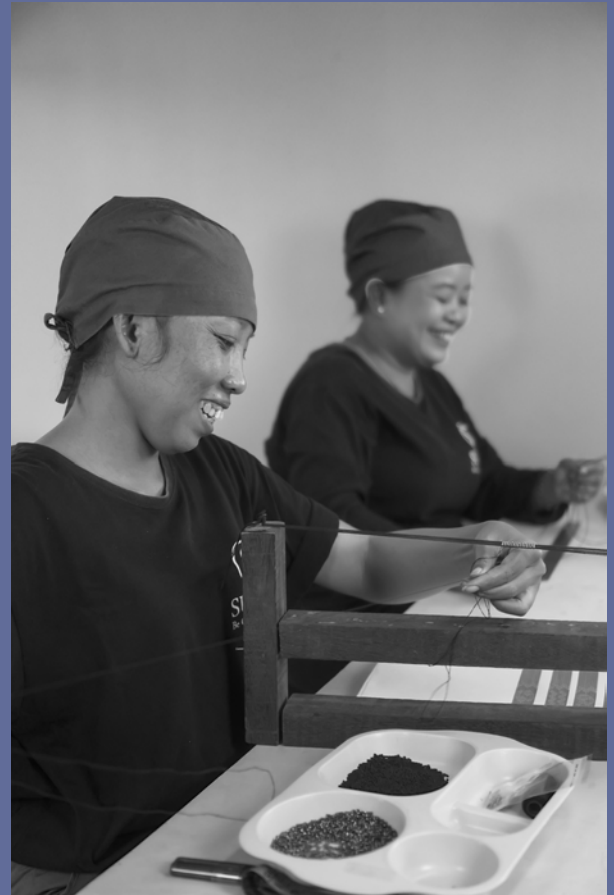

Immerse yourself in the **Circle of Life** range, where intricate designs and recycled materials evoke a sense of inner peace and enlightenment.

Allow the **Golden Hour** line to transport you to a realm of warmth, mirroring the glamorous whispers of mediterranean elegance.

Finally, surrender to the captivating allure of the **Midnight Glam** selection, where city-chic elegance embodies the glimmering lights of the soul.

As you explore our catalog, we invite you to embrace the deeper meanings within each piece, for they are more than mere adornments -they are gateways to a spiritual connection, reminders of the sacred beauty that resides within us all.

CIRCLE OF LIFE

Approximately 8 million metric tons of plastic waste is dumped in the ocean every year. We take pride in the sustainability of our products from acquisition of materials to the process they undergo.

Recycling is a major part of the global efforts to reduce plastic in the waste stream. We always thrive to be environmentally friendly as a pledge to do our part in making the Earth a better place.

We work with plastic recycling companies that collect 100% of their plastic from dumpsters, rivers, and beaches. It's a long and time consuming process since all the cleaning and dividing of the plastic bottles are still done by hand.

We currently recycle these types of plastic:
High-Density Polyethylene (HOPE) - plastic chairs, milk jugs, bottle caps; *Low-Density Polyethylene (LOPE)* - lunch boxes, squeeze bottles; and *Polypropylene (PP)* - vitamin containers, shampoo bottles.

These types are the safest to be recycled since they have stable melting points.

For now, we can only produce in limited shapes and sizes since the material itself is very tricky to handle, but we are always in pursuit to create more without compromising our environment. Lastly, we use the authentic color varieties created in the process.

RECYCLED PLASTIC
RECYCLED PLASTIC
RECYCLED PLASTIC

Fresh batch of PP plastic being divided into categories.

Handwashing process, to remove all dirt, oils and sand.

All clean plastic are divided by colors and then shattered into small pieces.

Shredded plastic put into a tray, then to the melting oven, which creates a big plastic slab.

To create rounded beads, we cut this big slab into cubes and then we put the cubes into a special machine to produce the final rounded shape.

Bracelet
